### **DETAILED ACTION**

This action is in response to applicant's amendment received on 11/01/2011, placing the limitations of claim 9 into claim 1, placing the limitations of claim 14 into claim 13, and making claim 16 independent, after a decision by the Board of Patent Appeals and Interferences affirming the rejection of claims 1-8 and 10-13, rejected under 35 U.S.C. § 102(e) as being anticipated by Palasis (U.S. Patent No. 6,689,103), and reversing the rejection of claims 9, 14, 16, rejected under 35 U.S.C. § 103(a) as being unpatentable over Palasis (U.S. Patent No. 6,689,103) in view of DeSena (U.S. Patent No. 6,198,807). Therefore, the rejections have been withdrawn. However, upon further consideration, a new ground(s) of rejection is made for claim 1 in view of Palasis (U.S. Patent No. 6,689,103) as set forth below, and PROSECUTION IS HEREBY REOPENED with claims 1, 13, and 16 pending.

Supervisory Patent Examiner, Art Unit 3734

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting

directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by **Palasis** (U.S. Patent No. **6,689,103**).

Palasis discloses a marker comprising a housing **22** in the form of a marking pen, a reservoir **26** in the housing that is filled with a substance or "radiopaque filler" when dispensed through the marking pen is radiopaque, and wherein the substance is primarily a powder, or "tungsten powder" (col. 7, lines 48-67).

#### ***Allowable Subject Matter***

3. Claims 13 and 16 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art alone or in combination disclose or suggest indicating an operative site using a radiopaque marking pen filled with powder by marking a surgical film, not the step of erasing this indication from the surgical film if not optimal.
